Intelligent check-in system and whole-house smart control

- The intelligent check-in system includes: room reservation, check-in, extension of stay, check-out, and invoice generation.
- The check-in system can be customized and upgraded to meet various customer needs.
- Smart control of all household appliances, with support for voice commands and remote monitoring of property status.
- We offer customized smart system services, tailoring system functionalities to meet client requirements, and creating specific programs.

 Kitchen and bathroom 4100*3500*3216mm
 1st floor 7700*3200*3216mm 2nd floor 7700*3200*3105mm
 63.6m²

Any shape and any style

- Our designers create the exterior and interior structure of capsule house based on customer requirements.
- We offer customized decoration styles and interior layouts for the capsule house purchased by our clients.
- Tens of thousands of furniture, decor items, appliances, and bedding options are available for clients to choose from.
- Of course, utilizing our existing capsule house designs would result in a much more affordable price.

Safety

- Waterproof Rating: IP66
- Seismic Intensity Resistance: Level 9
- Wind Resistance Rating: Level 12 Typhoon
- Snow Load: sk=1.66kN/m²
- Successfully endured a 4-hour fire resistance test, with the main structure and interior cabinets remaining intact and undamaged.

24/7 Technical support

- We offer round-the-clock technical support to assist customers in resolving any issues encountered during the installation, residence, and maintenance of capsule house.
- If needed, we can also provide organization and storage of intelligent system data to help you save on data server expenses.
